The Proposal

You are invited to support the future of this region through sponsorship of Tec-NQ's annual program. A skilled workforce is integral to any successful economy. Since its inception in 2007, Tec-NQ has enabled hundreds of young men and women to accomplish their career goals.

We have approached your business because we see shared values in delivering positive outcomes for this region. We acknowledge your organisation's interest in supporting the career development of young people and would be honoured if you would consider sponsoring our program.

Tec-NQ is in the unique position of being both an independent school and a Registered Training Organisation (RTO). As Townsville's leading senior school for trades and work readiness, Tec-NQ caters to an audience of approximately 260 students, their families and, when employed, their employers. As a registered training organisation, Tec-NQ also conducts short courses and trains approximately 350 full-time apprentices who are employed across the automotive, construction, electrical and engineering trades.

Tec-NQ is a not-for-profit organisation that partners with industry and community to deliver industry-based career opportunities through training and education. Its vision is to create employability and success through industry skills, experience and support.

At Tec-NQ, we've got ambitious goals for the future and a strong vision to lead innovation in education and training. With your help we can make this happen.

Tec-NQ is pleased to offer its range of 2019 Sponsorship Packages.

Our **Premier Partner** package will position your business as an industry leader across the entire Tec-NQ network.

Seeking an opportunity to promote the service you provide for industry? Consider our **Industry Support Partner** package.

Would you like to join the network of businesses who are rewarding students who take the lead in their trade and/or academic studies?

Award Scholarship Sponsors support rewards for these achievements.
