AUR2020 CERTIFICATE II AUTOMOTIVE AIR CONDITIONING TECHNOLOGY

NATIONALLY RECOGNISED
TRAINING

COURSE INFORMATION

This upskilling course is designed for approved participants who are undertaking an automotive apprenticeship or have completed a current automotive trade qualification.

The training will equip the participant with the skills and knowledge to service and repair air conditioning systems in cars and heavy vehicles. It involves fitting, installing, servicing and repairing of air-conditioning systems on various types of vehicles.

Upon completion, participants who have completed the prerequisite units as part of their trade qualification will receive a Certificate II in Automotive Air Conditioning Technology.

COURSE OUTCOME

Participants who successfully complete this course will receive a statement of attainment for the following units of competency.

AURETU103	Service air conditioning and HVAC systems
AURETU104	Diagnose and repair air conditioning and HVAC components
AURETU102	Recover vehicle refrigerants

Tec-NQ will issue a Certificate II in Automotive Air Conditioning Technology upon successful completion of these units in combination with evidence of credit transfers for the prerequisite units from a relevant automotive trade qualification.

This qualification will enable participants to apply at Arctick.org for a AAC02 Refrigerant Handling License. This licence will allow you to work on air conditioning and refrigeration equipment fitted to the cabin of a motor vehicle and handle refrigerant.

COURSE PREREQUISITES

A statement of attainment for the following units of competency is required four weeks prior to course commencement.

AURAEA002	Follow environmental and sustainability best practice in an automotive workplace
AURASA102	Follow safe working practices in an automotive workplace
AURETR112	Test and repair basic electrical circuits
AURTTA118	Carry out diagnostic procedures
AURTTA104	Carry out servicing operations
AURTTC103	Diagnose and repair cooling systems
AURTTE104	Inspect and service engines
AURTTK102	Use and maintain tools and equipment in an automotive workplace
AURETR125	Test, charge and replace batteries and jump start vehicles
AURETR129	Diagnose and repair charging systems

Please contact Tec-NQ regarding RPL options (may incur additional costs) if a statement of attainment cannot be supplied.

ENTRY REQUIREMENTS

A statement of attainment for course prerequisites is required four weeks prior to course commencement to be accepted into this course.

Tec-NQ will provide proof of enrolment to the participant when they have been accepted into the course. This proof of enrolment is required to apply for a trainee handling licence from Arctick. Participants can apply for this licence at the link below. The trainee handling licence is required to commence training.
